**We are proud to present Dekker
Chrysanten's 2026 Variety Overview.**

This booklet features a carefully curated selection of varieties that will take center stage in the upcoming season.

All varieties included in this overview were developed by Dekker Chrysanten. Through close collaboration with growers and other partners in the chain, we continuously work on innovations that contribute to quality, sustainability, and profitability—both now and in the future.

For each variety, you'll find the growers who cultivate it, offering a clear view of where and by whom the variety is produced.

We hope this booklet will inspire and support you in selecting the right varieties for the coming season. Should you have any questions or require further information, please don't hesitate to contact Dekker Chrysanten or the respective growers.
