We help nature
just a little bit

 **G. de Koning**

We help nature just a little bit

De natuur levert veel mooie kleuren, maar soms heeft uw klant andere wensen. G. de Koning is al meer dan dertig jaar gespecialiseerd in het kleuren van bloemen en bladproducten. Innovatief en milieuvriendelijk.

Dagelijks kopen we producten in op de veilingen van Royal FloraHolland. Bloemen worden gekleurd door middel van de optrek- of dompelmethode, ook spuiten en glitteren zijn mogelijk.

Naast standaardkleuren maken we ook specifieke kleuren, bijvoorbeeld voor bruiloften. Samen met u vinden we de kleur om de natuur een klein beetje te helpen. Neem gerust contact op over de mogelijkheden.

Nature is full of beautiful colours, but sometimes your customer is looking for something else. G. de Koning has more than thirty years of experience in dyeing flowers and leaf products. We are innovative and environmentally friendly.

We purchase products daily at the auctions of Royal FloraHolland. The flowers are dyed through absorption or through a dipping process, although we also offer spraying and glittering.

In addition to the standard colours, we can create specific colours on request, for special occasions such as weddings. Together, we will help you find the right colour to give nature a helping hand. Feel free to contact us to discuss the possibilities.
