Colour your world.

HELLO SUMMER!

Step into the joyful world of summer! This joyful season embraces us with its bright rays of sunshine, warm breezes, and endless opportunities to have fun and create unforgettable memories.

And while enjoying this summer joy, we would like to inspire you with a selection of beautiful chrysanthemum varieties that will bring your season even more to life. We have carefully chosen the varieties based on their availability and match with the trends and colours of the moment. With this wide selection of varieties, you can definitely add colour to your season!

'Collecting memories' is the style trend for this summer, focusing on restoring balance and creating calmness. This trend exudes poetry, tenderness, and nostalgia, offering a sense of comfort, security, and softness.

Materials such as ceramics, porcelain, and natural textiles are used, while the colour palette consists of soft shades of green, white, lilac, and pink.
